Guide

Application

You must submit your application for a licence to provide betting and/or online casino to the Danish Gambling Authority, which is the authority that can issue the licence. This is stipulated in Consolidation Act no. 1303 of 4 September 2020 on Gambling and Consolidation Act no. 336 of 7 April 2016 on certain games for Greenland.

Definitions

- Betting is activities where a participant can win a prize by staking money and betting on the outcome of a future event or on whether a future event will take place.
- Online casino is gambling between a player and a gambling operator using remote communication. With an online casino licence, the gambling operator can offer roulette, baccarat, punto banco, blackjack, poker, online bingo and payout slot machine games in an online casino.

The Danish Gambling Authority may authorise other forms of gambling and may also limit the individual licence to one or more forms of gambling.

General requirements for submission of the application material

You must submit the application, any annexes and appendices using the Blue-whale system to ensure that the information is not intercepted or read by others.

You can send messages via Bluewhale by providing an email address and mobile phone number to an employee of the Danish Gambling Authority. The employee can then start the communication by sending you a Bluewhale message to which you can reply.

Read more about Bluewhale at spillemyndigheden.dk/vejledninger.

The Bluewhale message must be sent as a ZIP file with three or four folders depending on whether Annex C is also submitted.

The folder names must be:

- The application
- Annex A
- Annex B
- Annex C, if applicable.

All folders, subfolders and documents must be named with a descriptive title. In addition, the documents must be named with a number so that it refers to the relevant item from the application. Documents that do not belong to a specific item are categorised as other appendices, for example: 'Risk management report – other appendices'.

The total number of submitted Annex A must be stated.

The 'Application' folder must contain the application form and all related appendices. If there are multiple documents for an appendix item in the application, you must create a subfolder, which is given the same name as the appendix in the form. Document names in the subfolder are subordinate.

The 'Annex A' folder must contain all appendices for Annex A, named: 'Annex A – followed by the name of the person who has filled in the annex'. All appendices to Annex A are named according to the appendix name in the form followed by the name of the person it concerns.

If there is not enough space on the form or the annex, for example if the person has had more than two countries of residence within the past ten years, the rest

of the information must be attached separately. The document is named, for example, 'Item 5 – additional information followed by the person's name'.

For the 'Annex B' and 'Annex C' folders, follow the same procedure as for the application form.

If the submission deviates significantly from the above guidelines, the Danish Gambling Authority may choose to return the application material so that the applicant can resubmit it according to the above guidelines to ensure correct case processing.

Terms and conditions

Persons aged 21 years or older can obtain a licence to provide and organise gambling products and services if they:

1. are not under guardianship or limited guardianship,
2. have not filed for reorganisation, bankruptcy, liquidation or debt rescheduling,
3. are not under reorganisation, in bankruptcy or liquidation or undergoing debt rescheduling,
4. have not been convicted of a criminal offence that entails a risk that they will abuse the access to engage in gambling activity,
5. do not have outstanding debt to public authorities.

The Danish Gambling Authority may grant a licence to provide and organise gambling products and services to companies that meet the conditions in items 2-5 and where members of their Executive Board and the Board of Directors meet the conditions in items 1-5.

The company must be established in Denmark or in another EU or EEA country. If the company is not established in Denmark or another EU or EEA country, the Danish Gambling Authority may grant a licence if the applicant has appointed a representative who can be approved by the Danish Gambling Authority.

The applicant, members of the Executive Board or Board of Directors or others who can exercise a controlling influence on the operations of the business must not have shown such conduct that there is reason to believe that the business will not be run in a sound manner.

Only applicants who are deemed to be able to conduct gambling activities in a financially and professionally sound manner may be granted a licence to provide and arrange gambling.

Fee

Applicants must pay a fee to the Danish Gambling Authority for the processing of gambling licence applications. Applicants who are granted a licence must also pay an annual fee.

Application processing fee

The fee must be paid at the latest when you submit the application. Remember to attach proof that the fee has been paid.

The fee must be paid to the Danish Gambling Authority:

Danske Bank:

If you pay from abroad:

IBAN number DK4102164069174310 – Danske Bank,

SWIFT code: DABADKKK.

Guide continued

In the field 'Message to payee', enter the applicant's name as written in item 1 of the application and state what the fee is to cover.

The fee is adjusted annually.

As a general rule, the Danish Gambling Authority does not refund the fee if the application does not result in a licence.

You can read more about the fees at the Danish Gambling Authority's website spillemyndigheden.dk.

An annual fee is paid, which is calculated according to the size of the gambling income.

The fee is fixed according to the attached budget.

If your gambling income is higher than the income on which the payable fee has been based, the Danish Gambling Authority will charge an amount corresponding to the difference between the fee paid and the actual fee. The fee must be paid no later than one month after you have received the demand for payment

If the gambling income has been lower than the income on which the payable fee has been based, the Danish Gambling Authority will refund an amount corresponding to the difference between the fee paid and the actual fee. The Danish Gambling Authority will refund the fee after the end of the calendar year.

The fees are adjusted according to section 20 of the Danish Act on Income Tax for Individuals etc. (Lov om indkomstskat for personer mv.).

Guide continued

beneficial owners.

The term 'beneficial owner' is defined in the Danish Anti-Money Laundering Act, which is administered by the Danish Financial Supervisory Authority (Finanstilsynet). The Danish Gambling Authority refers to the Danish Financial Supervisory Authority.

The beneficial owner of an applicant company is the natural person(s) who ultimately own(s) or control(s) the applicant company.

When the applicant company is to identify who its beneficial owners are, it must assess which persons have a sufficient share of the ownership interests or of the control. An indicator of what constitutes a sufficient share will generally be that the person has more than 25% of the ownership interests and/or control (indirect ownership). However, it is important to stress that the percentage threshold is only an indicator of actual ownership or control.

When calculating a beneficial owner's total ownership shares and/or interests, both direct and indirect ownership must be included, that is ownership shares and/or interests owned through other legal entities must be added to the directly owned ownership shares and/or interests.

A person must also be regarded as a beneficial owner if the person has control of the applicant company which constitutes more than 25% by other means, for example through rights according to the company's articles of association or agreement, including ownership agreement or mortgage or pledge agreement, which may include (non-exhaustive list):

- Appointment of management members
- Approval of annual report in relation to dividend payments
- Right of veto
- Other rights.

It is important to note that beneficial ownership can be a combination of direct and indirect ownership, as well as control through other means. It will always depend on a case-by-case assessment.

Foundations, trusts and similar legal arrangements

If the ultimate owners of the business are a foundation, foreign trust or a similar legal arrangement which, by definition, does not have an owner, the applicant company must still examine who ultimately controls the foundation, foreign trust or similar legal arrangement through direct or indirect, ownership-like, powers, for example the Board of Directors or special beneficiaries. It will be necessary to examine the structure of the foundation, foreign trust or similar legal arrangement, including, for example, articles of association, founders, administrator and beneficiaries.

The business has no beneficial owners or where the beneficial owners cannot be identified

If the applicant company has no persons who are beneficial owners, the business's registered members of the day-to-day management must be entered instead of beneficial owners. This may, for example, be the case where a company is owned equally by ten persons.

If the applicant company cannot identify its beneficial owners, the business's registered members of the day-to-day management must be entered instead of beneficial owners.

The applicant company must account for the measures taken by the business in the attempt to identify the beneficial owners.

Further guidance and interpretative contributions

For further guidance and interpretative contributions regarding the identification

of beneficial owners, reference is made to the Danish Financial Supervisory Authority's anti-money laundering guidance and the Danish Business Authority's guidance on registration of beneficial owners.

Item 22 Setoff-free account

The funds that a player has on the player's gambling account are entrusted funds that must be held in an account with a bank etc. which is kept separate from the licence holder's own funds and to which only the licence holder has access. The funds from the account can only be paid out to the player and must therefore not be used to cover claims against the licence holder. The funds must be secured in case of insolvency etc. of the licence holder.

Item 23 Responsible gambling

The applicant company must familiarise itself with the players' gambling patterns using software or through ongoing manual reviews of gambling history etc. A combination of these can also be used.

If the applicant company intends to use machine learning, please describe how the training set will be categorised/scored.

If the applicant company does not intend to use machine learning, please describe which criteria/scores will then trigger either a reaction or manual assessment.

The chosen method should ensure that those players whose gambling patterns indicate problematic gambling behaviour, as well as those players who have an actual gambling addiction, are identified.

Item 24 Other information for use in the case processing

If there is other information that the Danish Gambling Authority would reasonably expect to be made aware of, you must enter it here.

Item 25 Applicant's declaration and signature

The applicant is the authorised signatory(ies) of the company, for example the CEO, another person or a larger group of persons.

The information will be checked by the Danish Gambling Authority when we process the application.

By signing the document, the applicant declares that the information provided is correct and complete.

Item 26 Appendices that must be attached when applying for a licence to provide betting and/or online casino
